

# When you want to gloss over the details

## ...and still get total print protection

As you know, solid, dark, print is susceptible to finger marks, scuffing and the like, but you'll notice even though we've only gloss coated the feature points on this page for a special effect, we've also matt varnished the rest ..IN ONLY ONE PASS!

That's right, 5 colour print plus brilliant gloss highlights plus locked in, mark free colour in a single pass. We call the process 'Glama Glaze' ...it puts the gloss on your presentation.

# GLAMA *Glaze*

Many of our clients are already taking advantage of our unique Glama Glaze process to create stunning effects on their packaging, point of sale and merchandising units.

Glama Glaze is another stunning finish that we can create on any printed item up to a huge size of 1620 x 1190mm on our high quality Glama Flute boards and other print mediums.

With our huge print size & finishing capabilities, Glama Pak can create a wide range of brilliant colour display and merchandising items.

Posters, showcards, larger than life cut-outs, product display and sell units and boxes of all shapes and sizes.

## FREE DESIGN SERVICES

Let Glama Pak design and produce a sample of your next POS item along with a quotation, absolutely obligation and cost free.
